

## EVALUATION SNAPSHOT

## SKILL DEVELOPMENT

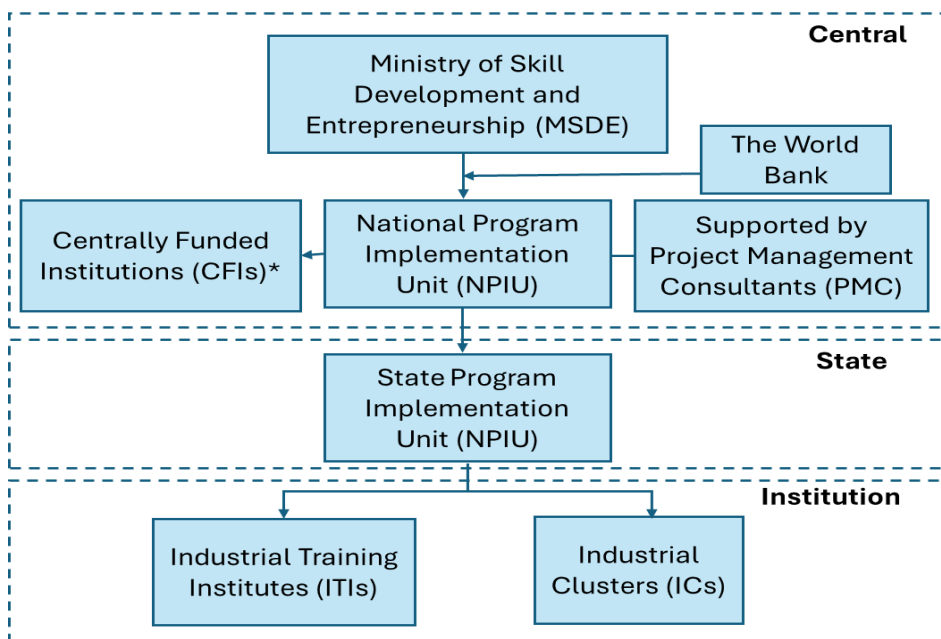

# Strengthening for Industrial Value Enhancement (STRIVE)

The Skills Strengthening for Industrial Value Enhancement (STRIVE) initiative is a reform-focused project implemented by the Ministry of Skill Development and Entrepreneurship (MSDE), Government of India, upgrading the infrastructure of 500 ITIs: 467 government + 33 private; 100 Industry Clusters (ICs) across India.

## Components of STRIVE

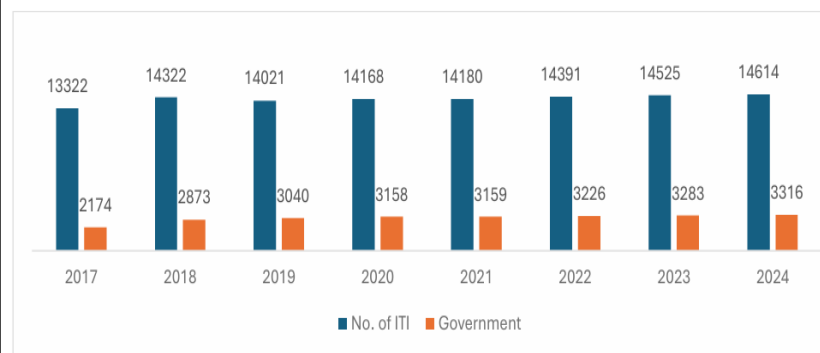

1. Improving Performance of Industrial Training Institutes (ITIs)
2. Increasing Capacities of State Governments
3. Improving Teaching and Learning (TL)
4. Improving and Broadening Apprenticeship Training

## Fund Disbursement structure of STRIVE Scheme

\* Instructional Media Institute (NIMI), Central Staff Training and Research Institute (CSTARI), etc.

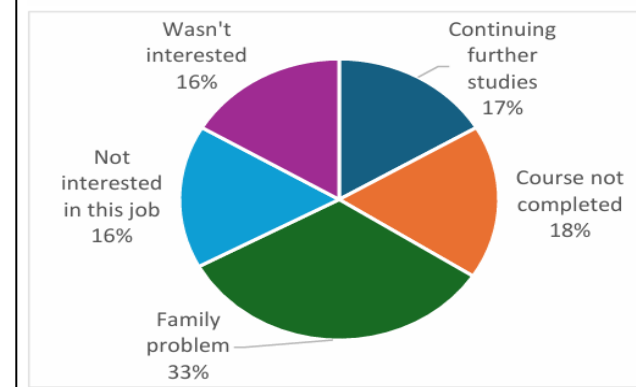

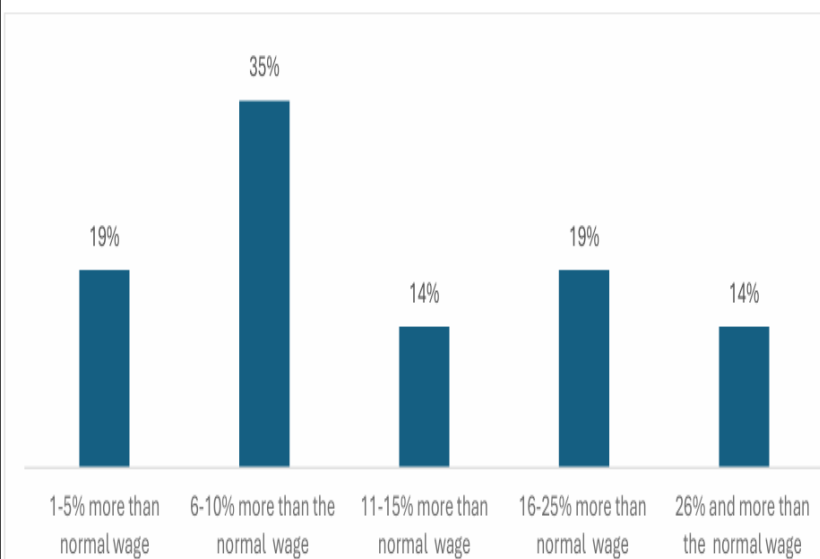

Figure 4.11: Willingness to pay minimum wages to the ITI pass out candidates

ITI principals have reported that Training of Trainers (ToT) has improved trainers' teaching pedagogy. Upgraded equipment and modernised curriculum have helped gain better skills, active participation of IMC helping candidates in getting OJT, industrial visits, apprenticeship and placement opportunities.

# Skill Acquisition and Knowledge Awareness for Livelihood Promotion (SANKALP)

To strengthen institutional mechanisms for skill development and enhance access to quality, market-relevant training for youth across the country

## Components of SANKALP

1. Institutional Strengthening at Central, State and District levels for planning, delivering, and monitoring high-quality market-related training
2. Quality Assurance of skill development programmes
3. Inclusion of marginalised population in skill development programmes

## Funding Structure of SANKALP

# Strengthening of Infrastructure for Institutional Training (SIIT)

The Strengthening of Infrastructure for Institutional Training (SIIT) scheme was introduced in 2015 to support the development of physical and training infrastructure in selected states. The scheme specifically focuses on Industrial Training Institutes (ITIs), aiming to strengthen their capacity by funding the construction and renovation of buildings, provision of training equipment, other related services required for effective vocational training delivery.
